

Client Profile	Target Audience	Design	Development	Technical Highlights	Overall Site	Presentation & Preparedness	What is one strength of their client site?	What is one suggestion for improvement?
2	2	2	2	2	2	2	The site is very clean and has a lot of functionality!	My only thing is that maybe add an 'Out of Stock' below the price instead of having to click it.
2	2	2	2	2	2	2	I really like the security and admin page buildouts. It's quite cool how her mom can add products to the site straight from the admin page.	I think overall this is a great site! It's secure and does the job well.
2	2	2	2	2	2	2	Everything is neat and clear. Very easy navigation.	The blue color for the buttons looked odd to me, but that's just me personally. I feel like pink or orange would match better.
2	2	2	2	2	2	2	Very good presentation	None
